

Meet Aero.

The evolution of intelligent airflow.

QuickCool™ Ice Chamber

Enhance your environment in a snap with our easy access ice bin.

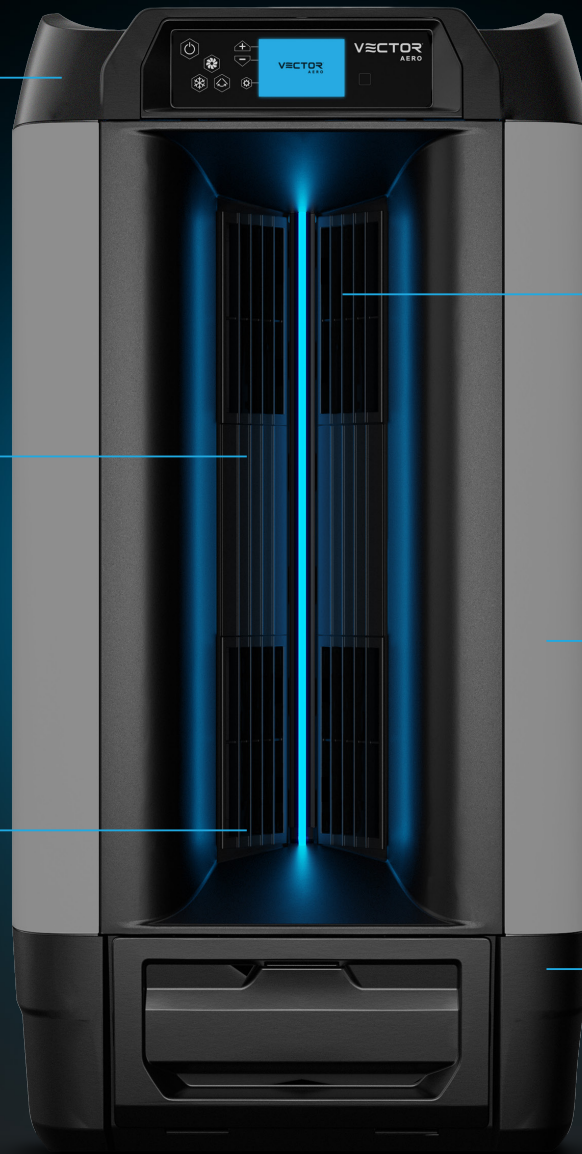

Variable Oscillation up to 180°

Fully customizable panoramic airflow range. (narrow, wide and ultra wide)

Smart Mobile Outdoor Cooling

Using only water, Aero's evaporative system provides up to 25° of cooling.

Patented CrossFlow™ Technology

Proprietary Next-Gen airflow technology.

Made in America

Proudly designed and manufactured in the United States.

QuickCool™ Reservoir

Multiple water connection options with easy access for cleaning and maintenance. Hygienic circulation technology using as little as 16oz of water.

VECTOR
AERO

Smart mobile outdoor cooling.

Dimensions	40.2"H x 22.5"W x 18.7"D
Velocity	25+ mph
Air Delivery	1800 CFM
Power Usage	400W
Input Voltage*	110-220V (50-60Hz)
Weight (dry)	75 lbs
Fan Speed (airflow)	Variable 8 speeds
Coverage	1000-1200 sq ft
Water Reservoir	8G / 30L
Noise Level	Whisper Quiet < 58 dB
Oscillation	Variable up to 180°

*Voltages higher than 120VAC require input cord change and do not comply with standards as listed.
